Subject: wastewater permits

Dear Sir: In regards to issuing a new permit to the Bad River Band, I would first like to know if they rectified the problem that they were having with their treatment plants? If not, why are we even talking about said issue. Were they even fined for their violations (42 times) in a 57 month period? If not WHY? I can't believe that the EPA, would knowingly let the tribes pollute Lake Superior without any consequences!!! If any large corporation got caught doing this they would be fined Millions of dollars!!! This is beyond comprehension!!!!!!!!!!!!!!!!!!!!!!!!!!!!Thank you for your attention- Mark MacLeod
